MorehouseCowles Adds Machine Specials, Parts Ordering Website Functionality

MorehouseCowles recently announced two additions to its website, including a list of machine specials and a parts ordering feature for stone mills.

Chino, CA – May 28, 2009 – MorehouseCowles, a leading provider of dispersing, mixing and milling equipment and parts, recently announced two additions to its website, including a list of machine specials and a parts ordering feature for stone mills.

Website visitors will find a new *Machine Specials* section featuring current machines that are in stock and ready to ship. Also included in the *Machine Specials* listing are 2D images and links to machine specifications. To access this list, please visit <http://www.morehousecowles.com> and click on “View MorehouseCowles Machine Specials” for more details.

The other update to the MorehouseCowles website is online ordering for stone mill parts. This addition makes it fast and easy to replace stone mill gaskets or blades. To access this ordering system, please visit: <http://www.morehousecowles.com/orderparts>.

For more information regarding the new additions to the website, call 1-800-625-4819 or visit <http://www.morehousecowles.com>.

###

About MorehouseCowles
